

BONDERITE®

-50% VOC

Compared with
solvent-based
cleaners

Spotless performance.

BONDERITE® C-MC 21130 – The new environmentally compatible cleaner for all uncured paints and coatings.

BONDERITE® – Upgrades your standards.

Henkel

Hard on paint, soft on the environment!

Safe and environmentally compatible, the cleaner BONDERITE C-MC 21130 removes uncured paints and coatings within minutes. It is ideal for all companies that use paints and wet coatings. Innovative and water-based, BONDERITE C-MC 21130 replaces conventional solvent-containing cleaners that are hazardous, toxic and flammable.

One cleaner for all paint and coating types!

Easily dissolves both water-based and solvent-containing paints, wet coatings, latex, rubber, resins and electrophoretic deposits. Will even remove uncured adhesives such as cyanoacrylates, 2-part polyurethanes and silicones.

Non-flammable. Safe!

BONDERITE C-MC 21130 is non-flammable. No special precautions are needed for transport or storage.

Odourless and non-hazardous!

BONDERITE C-MC 21130 contains 50 percent less volatile organic compounds (VOC) than conventional solvents and is odourless up to 40 °C. No breathing mask* required.

Simply apply and wipe off!

Apply the paint remover with a brush or spray gun and wipe off the paint or coating using cloths. The surface will be spotless within minutes.

* If aerosols are formed, personal protective breathing equipment with ABEK-P2 filters is recommended.
