TIMBER PROTECTION

ZEROFLAME FIRE RETARDANT TREATMENT

Zeroflame Fire Retardant Treatment is a water based, clear solution that soaks into wood to leave the appearance of the timber virtually unchanged. Applied by brush, roller, spray, dip or vacuum method it achieves Euroclass B (BS Class 0) Fire Propagation and Spread of Flame fire protection on solid timbers.

Certificate application included with each container.

PACK SIZE: 5L
COLOUR: CLEAR

INTUMESCENT VARNISH

BOLLOM INTULAC ULTRA

The Bollom IntulaC Ultra Varnish system provides a high performance fire protection coating system for interior wood surfaces. It comprises a clear, transparent, water-based intumescent base coat – designed to form a protective carbon char in the event of fire, delaying the inflammation of the wood – and a clear, transparent, solvent-based protective top coat.

PACK SIZE BASECOAT: 5L
PACK SIZE TOPCOAT: 500ML
FINISH: SATIN / MATT

INTERIOR WALL PROTECTION

RUST-OLEUM ULTRA CLEANABLE MATT

Optimally cleanable, extra matt wall paint based on a special binding agent combination. The dry paint coating is moisture-repellent to reduce dirt build-up and remains permanently matt after cleaning. Highly suitable for use on walls in public buildings and rooms that are prone to dirt/dust accumulation such as kitchens, bathrooms and entrance halls. For interior use.

Class 1 scrub resistance

Class 0 surface spread of flame rating

PACK SIZE: 10L
COLOUR: WHITE (TINTABLE)

The Rust-Oleum logo features a red square icon composed of four smaller squares on the left, followed by the brand name "RUST-OLEUM" in a bold, black, sans-serif font. A registered trademark symbol (®) is positioned to the upper right of the brand name.

RUST-OLEUM®
